

## NSWIODA EAST COAST CHAMPIONSHIPS June 10 & 11th, 2017

**Georges River Sailing Club** would like to welcome you all to a great weekend of sailing on Botany Bay. This regatta is open to all Optimist class boats, Laser 4.7 and Radials, and 420 class boats. We have a fabulous beach for launching, plenty of space for many boats to launch together at once. The shallow beach water is easy for all abilities. Be aware that there is a deep shelf off the sand at very low tides.

### OPTIMIST GREEN FLEET

You will be racing right in front of the club, where parents and friends can help you launch and watch you sail! Some of you might already have met Connor Campbell, your Instructor for the weekend. He is super fun and full of energy, so expect to be busy both on and off the water! He will take you through each day with sailing tips, knowledge about the area, games and on water support at all times. He will give a briefing and a debrief each day too, so be sure to introduce yourself to him as soon as you arrive.

### OPTIMIST (INTERMEDIATE & OPEN), LASERS & 420's

The rest of the fleet will sail out on Botany Bay. This will likely provide good winds, lots of space and some great sailing. Many of you will we already have sailed out in Botany Bay. If it is your first time in Intermediate, be sure to check the tides and weather so you know what to expect and use this information to your advantage. The Racing will go off for each Fleet in sequence, so be sure to stay well clear of the start line when another fleet is about to race.

REGISTRATION at Regatta Office

08:30 - 10:00

COMPETITOR BRIEFING outside Regatta Office

10:15 Sat

FIRST WARNING SIGNAL
