PO Box 5242 Greenwich NSW 2065

NB NSailsports NSW & ACT Laser State Championships 5-6 December 2020 - COVID-19 Plan

This event will involve approximately 100 competitors 20 volunteer officials and potentially 80 supporters and coaches.

Almost all participants will be NSW or ACT residents. Non-residents are able to enter but would have to have entered NSW legally under current COVID Health Orders.

All competitors will place entries online and supply information as follows;

- Full Name
- Residential address
- Mobile phone
- Email
- Home sailing club
- Age category
- Boat number, name, rig

Sailors will register on arrival at the venue and be asked to ensure that their entered details are still current and correct.

Registration and Sailing Office will be manned with appropriate social distance and a queue (if there is a need) managed to preserve 1.5m separation.

Sailors will be required to sign on and off each day. This will be done using QR code and mobile app access online registration.

Reminders will be sent to participants about COVID safety via notifications on the event specific mobile app (Australian Laser App) and via the Association's web site <http://laser.asn.au>.

The Laser is a one person sailboat so social distancing on the water is not an issue. On the land while rigging COVID marshals at the venue will ensure that boats are adequately spaced.

A briefing prior to racing and a presentation after the event will be held in open air with appropriate social distancing explained and monitored.

Belmont 16s Sailing Club will manage entry to the club. If it is allowed then the monitoring of participants to this event inside the club premises will be managed by the club officials.

Toilet and showers for sailors away from the main club will be open before and after sailing. These facilities will be cleaned by club employees. Social distancing in the change rooms will be monitored by COVID marshals.
